FIREWOOD PROCESSING (Hildreth,ne)

Location **Nebraska** https://www.genclassifieds.com/x-682845-z

I have a firewood processor. I can cut and split your logs of firewood all with one machine. Can do large amounts. It also conveys it into a pile on the other end. Very fast and easy way to get your firewood processed. I charge by the hour depending on where I am going is how i determine what I charge. If you have questions or are interested please give me a call or text at

Thank.
