To the irresponsible dog owner that let his two dogs attack my son and then just walked away leaving him injured and with a broken skateboard. Shame on you! What kind of person are you? Way to take responsibility for you misbehaved pets actions. If you are ready to be a man and take responsibility feel free to.

For anyone else who may have information that can help me find the owner. The attack happened today in front of the Federal Building on front street around 1:30 pm. The man was described as an older man with white/grey hair with a medium build, wearing a blue shirt. His dogs were black and white, and appeared to be Border Collies or a similar.
