

Dexter cow and heifer calf (3500 USD)

Location

Washington

<https://www.genclassifieds.com/x-683412-z>

Registered Dexter cow and 4+month old heifer calf. Cow is 3 years old and this is her second calf. We have been using her as a family milk cow, separating the calf for about 8 hours during the day. She gives 1-2 quarts for the 8 hours (though I really notice an increase in the last couple of hours, so I'm sure she would give quite a bit for a 12 hour separation). She stands nicely for milking.

Both are dehorned. Black. Cow is registered, calf can be registered full Dexter. Both halter broke (mostly). \$3500 for both cow and calf and the head gate if you want it (currently mounted to a barn, so it is not a stand alone unit, but could easily be put onto a platform for stability).
