2 guys starting out with decent, low-budget film equipment and some ideas/concepts looking for others to help form a small, tight-knit filmmaking team. We want our team to consist of: writers, videographers, and video editors. We're implementing a DIY approach where we'll make the most out of what equipment and resources we have.

If any of you are interested, please reply back and you'll get to hear more about what we want to accomplish. We're both in our late 20s/early 30s, so we're ideally looking to find those within our age group (not mandatory, as we're more about those who can contribute and are committed to the team and our pending projects). Thank!
