REDUCED FOR QUICK SALE. Last attempt before selling it on eBay. Buy it now, and pay no shipping!

This is a very beautiful and unique ruby red FENTON lamp, poppy design electric table lamp. It's also referred to as "Gone with the wind " lamp. I purchased it in California, and brought it with me when we moved to Hawaii. The ruby red color is hard to find in the mainland, which makes it even more difficult to find in Hawaii. It's in excellent condition. No chips or damage. Dual bulbs are both lighted and in working condition.

Bought it for \$450 in an estate sale, and believe me you will never find it at this price, in this color and condition, especially if you are shipping it to Hawaii, it will cost you at least \$100 in shipping.

I have to down size my antiques, and belongings to make room. My loss is your gain.
You will love and enjoy this lamp for generations to come.

Please let us know if there is any questions you may have.
Thank you
Mike and.
