The dog is a brindle American Staffordshire Terrier weighing approximately 55 lbs, with cropped ears, brown eyes and he was last wearing a black collar with small metal spikes on it. His name is King, but he has a HEARING DISABILITY and will not respond when called by name. He is very friendly and loves other dogs.

King pushed my gate open and got out Sunday afternoon some time around 5 or 6 PM and was last seen in Wisner Dog Park. I have been able to find some information via Facebook/Nextdoor from people who were at the dog park while he was there, but I have yet to here where he ended up! If you have any information or idea where he is, please please please call or text me any time of day or night!
