

Need a website builder (for Word Press) (W. boise)

Location **Idaho**
<https://www.genclassifieds.com/x-684188-z>

I am in need of someone who can update my WP website for me. I am a professional with an LLC that works publicly and many cases state wide. I have the groundwork already done with a purchased Jupiter theme. Price is negotiable, and this may lead to continuous work depending on your reliability and quality of work you do.

What I need:

-Now-

1. Add a client login page which will lead to a private page specific to that client that I can update with information for them.
2. Add a side bar with "sign in", "contact us" and my companies Facebook feed.
3. Make my page look more professional as my line of business is very professional.

-Later-

1. SEO my site for me
2. Help create a user portal to internal database
3. Further work on other websites for other businesses I associate with.

Give me a realistic quote and nothing ridiculously high and be ready to do this. The sooner the better, as this needs to be done and money needs to be made.

Contact me for more information to include the
