

32 gb iphone 5c with bad imei (140 USD)

Location **Pennsylvania**
<https://www.genclassifieds.com/x-684405-z>

This phone has a bad imei but is otherwise in excellent physical condition. If you know how to fix this then this phone is well worth the \$140.
feel free to reply by email or text the number listed.

I purchased this phone off craigslist last week. The phone had been factory unlocked and I was able to use this T-Mobile phone with sprint. all was fine until my sim card stopped working a few days later. I came to find out that the guy who sold it to me, or whoever he stole it from had reported it stolen. I just want to get back some of the money I lost.

Have a good day/night
