## **Long Distance Animal Relocation (Jackson)**

Location **Wyoming** https://www.genclassifieds.com/x-684651-z

MyVIPuppy is a USDA registered company that specializes in the ground transportation of animals for which air travel is inappropriate. I am based in Pensacola, FL (Western Panhandle) but will travel anywhere in the lower 48. I exceed the standards established under The Animal Welfare Act. I only move one pet family at a time, so there is no chance of cross contamination of disease or of attack by other pets. We stop every 150 miles to run, play, eat, drink and eliminate. In the event the trip is longer than 650 miles, we check into a pet friendly hotel (usually La Quinta or Best Western) and the pets are brought inside to spend the evenings outside the confines of the kennel. There they are able to sleep, relax or play just as they would do at home. The comfort and happiness of the pets is the focal point of all we do. Please visit www.myVIPuppy dot com or call me toll free 844-DOG TRIP.

Our vehicles are equipped with GPS tracking, so with a free app downloaded to a tablet or smartphone, the pet owner can track us in real time, see where, when and duration of stops.
