"125 Pentatonic Licks" and "100 Major Scale Licks" offer over 200 different ideas that can all be used in any one solo. These licks can be easily adapted for any style or musical context.

Maybe you've been learning your scales but you aren't sure what the next step is. Or maybe you've played a few solos but you feel like you're playing the same licks over and over again.

If that sounds familiar then my books are perfect for you!

Think of scales as the alphabet, these licks are vocabulary words. The stronger your vocabulary, the better and more expressive your playing will be.

I can also show you how to adapt these licks into any context and how to put your own personal spin on them.
