Regardless of who performs your window cleaning; make sure that they are established and accessible meaning they are easy to contact if needed after the service. General liability insurance does not necessarily cover all types of service including window cleaning UNLESS there is a rider attached to cover same. When seeking a provider; make sure to inquire and confirm coverage is sufficient. Failure to do so may result in damage cost being at homeowners expense should damage occur. Workmans compensation coverage is also a consideration if there are a number of crew cleaning windows at your location. While it may not be required by law; it may relieve concern of potential liability if accident occurs on your property.

Our experience consists of 20 years of technical expertise as well as over a decade in direct-to-the-consumer customer service experience. Together; these 2 characteristics insure our clients a positive experience while receiving superior service.
