I charge 150\$ to build your webpage on wix, however if you decide to build a blog and going to need me to update and manage blog posts daily then that's 25\$ month..That means I will manage and update your page for you months after I built it.. IF YOU ALREADY HAVE A WIX PAGE THEN I CAN UPDATE THE DESIGN FOR YOU FOR 50\$

I can start working on webpage and show you the start of it before you even make your first payment to me..

If we decide to move forward then here's the easy steps to take in order for me to build your page...

Step 1- You create a free account with wix

Step 2- Send me your email linked to wix account

Step 3- I begin working on page in my account for you once we have an idea to go with it..

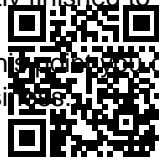

Step 4- I will update you the next day of how the page looks and if you want to move forward at that point then we can make a payment arrangement of 50\$ for first payment

Step 5- Upon finishing webpage I will transfer your webpage from my wix account to yours very easily.. you can then pay me the other 100\$ after the webpage is completely finished to your liking. I will never make you pay unless 100% satisfied with the product..

So at this point we can go over the subscription page, the template of webpages, and see if they have the core of webpages.

How you can pay me

!!!

After you finish the design, you can publish the page to the web. To do this, click the **publish** button in the top right corner of the page. This will open a dialog box that asks you to confirm that you want to publish the page. Click **yes** to publish the page. The page will then be published to the web and you will be able to view it in a web browser.

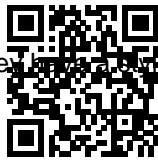

web page is finished
