

want to make a very small amount of money for nothing

Location **lowa** https://www.genclassifieds.com/x-685018-z

Then do what I do. http://www.swagbucks.com/refer/dumpleswag and play ads on your phone when you're not using it (or watching it). Like I said, it's not much money but it adds up. A couple of pennies every 2-5 ads. You can also play them on your computer. When you refer someone you get 10% of their earning for life. I've made about 80 dollars in the past 5 weeks. You can choose to cash out your swagbucks (1 sb = 1 cent) for a PayPal deposit, a gift card, or a few other options. Check it out and refer me, I'd really appreciate it. I play them very often on my phone and computer (i also occasionally take surveys - they have lots to do besides ads I just don't do most of them because I don't find them to be worth the time). I've already made over 100 real dollars in about 6 weeks. On the app swagbucks and T.v. they play through ads like YouTube or Netflix....just gotta check in once in a while and make sure it is still playing. Thanks!
