

# CUSTOM SOFTWARE DEVELOPMENT

**SINGULAR SOLUTIONS LLC** *Versatile, reliable, affordable software solutions*

## VERSATILE

Since 2001, Singular Solutions has assisted local companies achieve their business goals by developing custom software solutions.

We are expert in a range of technologies and are able to apply the most appropriate solution for your situation. Examples include:

- Web site applications (.NET, HTML5, Javascript, jquery, link, Ajax)
- Desktop and Console applications (MS Access, VB, C#, VBscript)
- Databases (MS Sql Server, MySQL, Oracle)
- MS Office integration (Outlook, Word, Excel, Project)
- API integration (Google, Adobe, Bullhorn, Piryx)
- Specialized applications (EDI, bar code readers, XML)

## RELIABLE

The single most common attribute you will hear from our clients is "reliable".

- We always deliver on our promises.
- We never miss a deadline.
- We only charge what we agreed to.
- We deliver, period!
- No half-completed projects.

Recent successes have been implemented at

- Analytic Recruiting
- Seacoast Outsourcing Solutions
- Spantech Software Inc
- Siemens Water Technologies
- WebDev Boston

## AFFORDABLE

We are pragmatic, charging a fair wage while delivering top quality software and services.

We build what you need and everything that you need without pushing unnecessary costs.

While many potential clients ask us "what is your rate", we prefer to agree up front on a total-project cost for well defined efforts. In this manner, you know that the project will fit within your budget and surprises are eliminated.

Our clients repeatedly call back for more! We trust you will too.

Hello,

I am a programmer with over twenty years experience developing software solutions for a large variety of businesses like yours! I recently moved to the area and offering my services as side-work to help pay for my kid's college education.

Looking forward to meeting with you and getting your project!!
