female mixed puppy. 9 weeks old. very sweet and smart. doing great with house training and kennel training. knows sit and working on other basic commands. she has had her shots, is not spayed. I was told she is a pit/lab mix but I'm not sure, she doesn't look like she'll get very big. I'm finding her a home because i have a 1 year old and i thought i could do both but I'm a single mom and it's just too much. she comes with her new kennel, dog bed, toys, treats, 2 bags of food, dog bowls, 3 months of flea treatment (just precautionary, she doesn't have fleas) leash, etc. She is a great little puppy. I'm asking \$100 for her and all her.
