

# Work with a Professional Graphic Designer

Location

Utah

<https://www.genclassifieds.com/x-694433-z>

For the past 8 years I've worked full-time as a Graphic Designer for a major institution but am always looking to take on more adventurous and creative projects on the side. As this is very much a creative outlet for myself, I can assure you any project I chose to accept will receive 110% of my dedication and attention. I'm not in this (just) for the money, so I offer my very experienced professional design services at a reasonable cost to you.

I design media and content in a wide variety of styles that correspond to any client needs and am proficient in all current graphic design software on Mac and PC. With all my designs I offer a solid strategic foundation, an abundance of fresh ideas and an excellent eye for clean, intuitive design.

Let's work together and allow me to help you and your business develop, design and produce high level print and interactive pieces. Here is the link to my portfolio/website that I created. Take a look and together we can create something cool.
