Need a down spout installed

Location **Rhode Island**
https://www.genclassifieds.com/x-694499-z

I have a 3 family house and need a single down spout installed. You'd need an extension ladder which would reach the roof line - it should be a very quick job just attach the spout to the gutter and attach 3 or 4 brackets on the way down. I can supply the materials but if you have them - I can reimburse for those as well. I'm located in the Smith Hill section of providence. Respond with your cost to replace and whether you'll have down spout and mounting brackets or I'll need to get them.

Thanks for checking out my.
