CHECK OUT THIS BEFORE AND AFTER REPAIR PHOTO!!

Consider this. While some roofs in our area were very damaged from the recent hail storms, The vast majority (thousands of homes) have very little damage and are easily repairable!

Regardless of what your insurance company is paying , we can repair the damage for a fraction of the price! We are not interested in seeing your insurance paperwork or asking you to sign a contract. We are interested in restoring your roof. Most roofing companies, especially the out-of-town storm chasers, are talking people into handing over all of the homeowners insurance money. There is no need to do that!

Here's what we will do if you call. We will, at no charge or obligation, look at your roof to determine if it can be repaired, or needs to be replaced. About 90% are repairable. We will give you a written estimate of the total costs of the repair. The highest repair we have done this year was \$2600.00. Your roof will probably cost less! What you collected from your insurance company is between you and them, and is of no concern of ours. That's your money!! We will, however, AFTER we give you our price, help you understand and recover all funds that your insurance company owes you, but this is your choice.

Give us the opportunity to show you by giving us a call.
