Bilried Financial Consultants helps individuals and families repair their credit, establish good money habits, and create custom budgets. You will be partnered with one of our IAPDA certified consultants, who will take you through our comprehensive financial freedom program. They will scour your credit report for any false, inaccurate, or mis-reported information, and help to guide you through the process of setting up and establishing a custom budget while they work on removing the unfair items dragging your credit score down. Our unique approach will repair your credit, help ensure you never have to worry about money again, and empower you to dream again, all for only \$60 a month.

On average, most clients need 3-4 months of service. To try to help ease the burden, we offer a discounted rate of \$50 a month when paying for multiple months at a time, and of course if you end up finishing before the estimated time frame we will be happy to issue a refund for the remaining months.
