

Juvinile Iguna (phoenix)

Location **Arizona**
<https://www.genclassifieds.com/x-694634-z>

I have a juvenile iguana that I am looking to rehome, I am starting a second job, and I am trying to simplify my life. I also have a beautiful rainbow boa that I am looking to rehome. I do not have time to spend with them.

I have only had the iguana for about a month, and is mostly house trained. He will come with food the cereal (you will of course have to buy fresh veggies for him), He like kale, collard greens, acorn squash, hibiscus flower petals, bananas, pears, apples. He will come with his tank (however he will not be able to stay in it forever, he will need to get a bigger place as he grows), however his is fine in this tank for a couple more months, I would imagine. I would prefer to get someone who is aware of his needs, and will be prepared to take care of him in the long run. He will also come with his tank dÃ©cor, and lighting.

The rainbow boa is about a year old, and she will also come with her tank, lighting, substrate, I will include her feed box, I have a little cage that I would keep her feeding mice in that I can include as well. She is completely hand tamed, and has never bitten me. The picture shown is when she was younger, She is about 2 feet long.

75.00 Rehoming fee will apply to for each.
