

# Topless (optional) appetizercocktail server for house party (LGBTQA) (haight ashbury)

Ideally we are looking for one sexy guy and girl to serve appetizers and drinks at our modest Upper Haight house party. It will be somewhat of a Burning Man styled party, but we really want to throw down and have beautiful topless people serving and having fun with everyone. It would really take our party to the next level, and you would be the catalyst! Think Burner meets Great Gatsby meets playboy mansion.. classy, sexy and cool..

Topless is optional, although it would be more interesting! We just want to host a dope ass SF party in our flat with all our close friends and have all the fun and stuff.

We don't have a specific date yet, but will be sometime in November.

Please use the attached pictures as creative inspiration..

If you're interested, please let us know and we can go from!
