Savannah College of Arts and Design artist looking to turn the concept of model and photographer on its head. Similar to a wildlife/nature documentary, I want to capture the inner attitudes and express of the model all while getting to know who they are via photography. Tell me how you want to express yourself. Very much a classic and soft style of photos

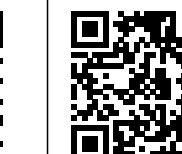

Concept secret nudity. "Where do you feel comfortable nude" Is it in your car, in your living room, in front of the TV, in nature, in the back yard, in the office after hours, in your yoga studio, skinny dipping, in front of your favorite mirror, in your tub, vacuuming, etc.... Secrets that people keep similar to PostSecret.com but with.
