Planned Parenthood videos tell us what we predicted: humans are killed and carved for profit. Abortion and human organ sales account for 86% of all PP income. The half-billion dollars sent by government to PP elects Democrats and other pro-abortion politicians, keeping the machine well-oiled.

There is no reason to think that this same profit trail does not extend to every abortion mill, every clinic, every abortion "doctor" across the country, including Hawaii.

Can we not gather as a community for ONE HOUR and pray together?

Please, Dear Lord our Savior, forgive our silence, our apathy, our lack of.
