I'm a writer and I've been traveling nomadically around the US since January 2013 working on creative and online business projects. I have house and pet sitting experience taking care of \$1,000,000+ homes along with the resident critters. As a result, I have a dozen excellent references and would love to take care of your place and your beloved pets so that you can get away for a few weeks this summer.

Here's what I offer:

- \* Dog walking
- \* Dog and cat feeding
- \* Litter box cleaning
- \* Mail retrieval
- \* Indoor/outdoor plant watering
- \* Errands
- \* Management of other household service personnel (house cleaners, plumbers, electricians, etc.)

The best part is that this is all at NO COST to you! All I need is a quiet, clean, comfortable place to stay and write. I'm drug, alcohol and smoke-free, quiet, trustworthy, respectful, self-employed, health conscious and I have a daily spiritual practice. I love a tidy, clean house and keep clutter to a minimum. Your house will be in the same shape or better once you return!

UPDATE! Right now I have openings beginning in November. I prefer sits of three weeks or longer.

I am a person who would love to help you. I have many inquiries of people who want more information.
