Quirk is a fun cat who is seeking a new owner. He's a very talkative animal who loves to play and cuddle. He's 16 years old, neutered, and has been in my family for most of his life. I inherited him back from my grandparents, but I travel frequently and can't be home enough to give him the attention he deserves. He hasn't lived with other pets, so he may not be ideal for multi-pet households. The \$40 re-homing fee includes his food dispenser, Breeze litter system, bed, scratching post, carrier, and other supplies. Please feel free to email me with any questions.!
