

Unusual Figure Model

Location **Minnesota**
<https://www.genclassifieds.com/x-695028-z>

I am male and overweight. I know some artists like to draw or photograph different body types. I have done this once before for a photographer and had a blast doing it. I would like to keep stepping out of my comfort zone and pushing myself to do things that scare me. I would appreciate it if only serious professional or amateur artists contact me. I have had some weird people contact me before. I am available during the weekdays. Late morning works the best for.
