The Growing Tree Home Daycare

Opening a home day care has always been my dream. It is my true calling to be working with children and I am very passionate about it. I'm 30 years old and have been a preschool teacher for about 10 years. I graduated with BA in Early Childhood Education 3 years ago and received my 04 teaching certificate. I am certified in CPR & First Aid. I love what I do however I've always wanted to work with a few children instead of a group of 20 which is what day care centers offer. I feel like children can benefit so much more from more personalized instruction available in a smaller setting. I'm very creative and love to let children explore and learn new skills through free manipulation of given materials.

Here's what my day care offers

- very wide range of enriching activities to meet the individual needs of each child
- building each child's emotional, social, cognitive and physical skills
- multi-cultural and developmentally appropriate materials and equipment
- open communication with families in an atmosphere of mutual trust and respect
- engaging learning activities that build upon what your child can do
- creative, fun environment
- child-centered curriculum
- creative exploration encouragement
- individualized instruction

healthy meals (fresh vegetables and fruits provided daily)mostly organic home made food
