

# Kenmore Washer and Electric Dryer

Location **Indiana**  
<https://www.genclassifieds.com/x-695074-z>

This is a nice, clean pair of Kenmore machines, both function perfectly. We're only selling them because we had another set given to us.

Washer features Auto Temp Control, Eco cycle, Power Wash, Delay Start, and 2-way Tumble Washing. Electric Dryer features Automatic Dry, Wrinkle Rid, and Timed Dry.

The machines are stack-able. The dryer sometimes makes a pulsating sound when it's running (listen via the link in the last photo) but it does not affect its drying performance at all. The functionality of both machines has been perfect. We've never had any problems with them washing or drying. You can see a video of the machines in action via the link in the last photo.

Sold as-is. I will include washer hoses, power cables, and manuals. Washing machine pan is not included. No demo available since they're already disconnected. CASH ONLY. Buyer must pick up. Bring your full-size pickup truck or large van. Each machine measures 36" tall x 27" wide x 27" deep.
