Hi,

We are a young rising real estate development company. We currently do fix and flips in the Chicago area, I personally run the entire company and manage our own construction. We do very nice work and complicated projects, we are currently preparing to tear the roof off of a 1 story house and build a full second story. I have minor acting and modeling skills, and comfortable in front of and speaking while being filmed. We are looking for someone looking to build their portfolio, we would like to market it eventually to some networks we have ties to. This project will be approximately 100 days in length, filming will not be required everyday, it is on the northside of Chicago, close to public transportation and Kennedy. Some compensation paid.

If you would like to have a chance to be apart of the next new hit Flipping Chicago, reply with contact info and we can discuss more. If replying please have basic video.
