Lonnie's Lament (McCoy Tyner Solo)

Location **Maine**
<https://www.genclassifieds.com/x-695115-z>

I am extremely fluent in music transcription, having spent hundreds of hours learning music by ear. The bulk of my experience has been in transcribing jazz (largely piano, bass, horns, guitar) and rock/pop music. I can create very accurate lead sheets (just chord symbols and melody) quickly, as well as painstaking note-for-note transcriptions.

Make rehearsal time more efficient. Learn the songs you've always wanted to, but could never find quality sheet music for. All music is professionally notated on the award-winning Sibelius software.

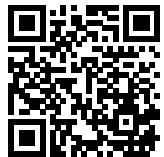

I additionally have created a number of piano arrangements for students who can't find a good arrangement, or want to learn an easier version, of a piece.
