Male teacup Pomeranian
 unaltered, utd on shots
 microchipped
 good with SMALL dogs & cats
 best in a home with children 6 years or older.
 weighs 1.2 lbs. 12 weeks old.
 vet & breeder said he will get between 3-5lbs fully grown.
 my big dog is too rough with him. & he needs more 1 on 1 time for potty training. ONLY reason for finding him a new home, is those reasons because it will be better for him.
 MUST have a fenced yard. Home inspection Required. i will only travel up to 25 miles for my asking price. it will go up from there since i drive a diesel truck.
 i am asking what i have paid for him & invested so NO profit is made!
 MUST be willing to stay in contact!!!!
 he does not have papers simply because he is a pet not a breeding dog. he cannot be neutered until 1 year most likely due to his size.
 he is a sweetheart & you will absolutely fall in love. pictures don't do him justice.

Rehoming Fee.
 Perfect forever home ONLY.
