An RV is great to have around in the summer, when the weather is clear and the wide-open road is safe for cross-country road trips or weekend excursions to your favorite campground. During the summer season, a curbside-parked RV in front of your home can be a welcome sight--a reminder of all that lies ahead once Friday afternoon rolls around. But not all of us have the space in our driveway, yard, garage, or at our curb to keep an RV or camper, and some neighborhoods face strict rules preventing RV owners from doing so. What do you do with such a huge vehicle in the winter, or in between stints of adventurous road-ruling?

The average size of a motor home is anywhere from 18 feet to 25 feet in length with a weight of approximately 3,000 pounds. When you think of the vehicle in those terms, you might wonder how you'll ever find a place to store it. That's where we come in. We have plenty of space to store your Camper, RV, Car or Boat.

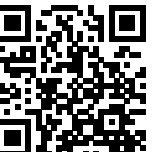

\$2.50 / Foot Per Month - MONTH to MONTH - No long term commitment

Example: 20' in length x \$2.50 = \$50.00 per month.
