TRI STATE PUBLIC ADJUSTERS
 Since 1977 Get What You Deserve

What most people don't realize about their insurance policy is, they don't have the coverage that they need, and most property owners don't realize it until they need their coverage the most.

Public Adjusters are experts in assessing the true value of the damage to a property. We negotiate with insurance companies on behalf of property owners to maximize the coverage that you can receive and assure that ALL damaged property is covered.

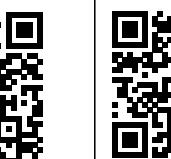

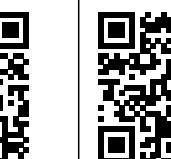

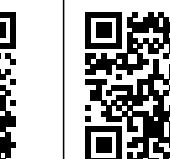

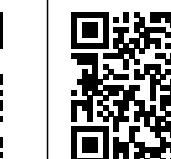

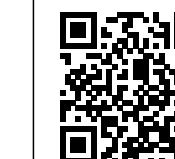

Public Adjusters, on average get the property owner 50% - 70% more from their insurance company than they would have without an adjuster

Insurance companies have their own adjusters, but, they're a business and their adjusters try to negotiate in their best interest, they cover the policy but try to not pay what the full extent of the damage is, let us negotiate in YOUR best interest!
