

# Siding crew residential sider for contemporary modern home (RentonKent)

Location **Washington**  
<https://www.genclassifieds.com/x-695476-z>

Need a crew of 3+ to side a contemporary & modern style home. Hardie board, Hardie lap & pre-cut vertical metal snap lock will be combined on provided illustrated plans. Pump jack assembly and operation is expected.

The attached pictures show the style of materials involved. These are similar completed homes. I'm a general that's LBI and you will be working under my supervision. This is a flat rate paying job and can be done on evenings and weekends as additional income for full time employed day-time tradesmen.

Please reply only if you can provide visual proof of a similar home that you have completed. Conner and Mainvue Homes subcontractors would be ideal.

I will have multiple projects of the same caliber upcoming shortly and I'm looking to build a trusted relationship with a qualified and selected group.

Please send your info by replying. I'll be contacting everyone daily until the proper set of people are locked.
