

## Food Blogger (Manhattan)

Location **Rhode Island**  
<https://www.genclassifieds.com/x-695532-z>

We are launching a new healthy food product that is in high demand and has many important health benefits. It comes from a whole food. This is not a supplement or any other man made food. This is 100% Raw plant food. Used in beverages, smoothies, juice bars, even hair and skin care.

Our company is the first in this area, and it will be well sought after by all health food stores and juice bars to start. What you write about will be interesting and rewarding. Not only will we pay you a salary for this gig but we will give you a share in profits from launching this product. A real healthy food commodity.

Blogger needed. And person to write for magazines and other media in New York to Boston.

This ad was written by the founder and so it is right to the point without those fancy words or descriptions written by someone in "human resources" paid for by a big company who has a healthy product and are most likely not telling the truth about it anyway. Our company has a 100% natural commodity. Straight from the plant, cleaned, packaged, and shipped to us here in New York and Boston areas to start.

The product and other products from plants we carry are all life savers. They work at the cellular level and not superficial foods or beverages ingested with little or no nutrients. Ours is packed with real life force nutrients.

The spas and hotels, restaurants, health food stores have already been asking for this food. And no one has it except for us.

Join the world's first healthy food team. This could lead to many things. Join our List, and there are many opportunities here. This is one of them.

Thank you.
