Are you considering legal recourse against your neighbor, business partner or just need to make a point? If you are considering small claims or civil litigation, I strongly urge you to take a critical preliminary step and allow me to write a demand letter for you.

My legal background is extensive and I can draft and finalize a demand letter on your behalf to aid you in recompensing damages and avoiding the excessive time, energy and costs which litigation requires.

I charge only \$99.00 for a complete and persuasive, legally appealing document which will provoke your opposition to begin listening to your claims and meeting your terms.

Best Wishes,
