I would like to find a bartender to serve drinks to a group of professionals, mixing as needed. Usually this is a small group, less than 20 and is about half and half male to female. . I hope to find a lovely youngish woman who is willing to do this gig topless. If this is something that interests you, send a photo of yourself, maybe in a bikini (doesn't have to be) and what you would expect to be paid for the evening. We will go from there.

If this ad is still up, I am still.
