

Move a shed (TownshendNewfane)

Location

Vermont

<https://www.genclassifieds.com/x-695655-z>

I am looking for someone to move our shed about 300 feet.

My husband tells me, 'if you want it moved so bad, do it yourself'. I would, though I don't have a flat trailer or truck to pull it from it's spot to take it to it's new location. So I am trying to see who might be out there to help me!

Shed is roughly 10x12'

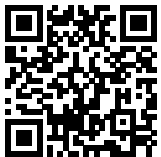

Please provide a phone number and a suggested time you an look at or complete the project with me. I have a jack that can boost it up...and I could have that done prior to you arriving if that is what works best.

I have a little money I could also offer for this.
