I have a male arctic fox and enclosure,all accessories Todd was born 7-9-15 and will be three months old the 9th of this month Todd is a wonderful pet loves dogs and cats however my wife's dog is not to fond of him and I live in fear of her killing him and that is my reason for re homing him his food is inexpensive can be bought at Walmart he also loves fresh raw meat and raw or cooked eggs and you can crush up the egg shells in his food for calcium absolutely no pork for more info and re homing fee contact

I will be picky as to who he goes to as he is part of our family and is loved very much his well-being is our utmost.
