For sale is an 8 GB iPhone 4. I had service with VERIZON. It is black with no noticeable scratches. You will look at this and think this phone is new. The only problem is the power button on the top does not work, which means you can't shut it down by using that button. Instead, you have to go into settings, click on accessibility, scroll down and turn on the "assistive touch" which will then allow you to shut it off every time you need to. Once this is set up, you no longer need to worry.

This is a cash only sale! Thanks for looking.
