Thousands of people every day suffer from intestinal disorders, infections, and diseases causing short and long-term pain and suffering. However, a new treatment is being used called fecal transplant. This is healthy stool transplanted into an individual with certain digestive disorders. (https://en.wikipedia.org/wiki/Fecal_bacteriotherapy)

We are seeking FEMALES ages 16 to 45 years old to become stool donors.
The stool you donate will be provided to healthcare providers across the country.

As a donor, you will be compensated \$875 with the opportunity to earn more.
This is a unique opportunity to earn extra money and help others.

You will provide your stool samples at home.
You will not have to visit any medical facilities.
We provide the container to collect your stool and it will be transported by a program associate.

If you are interested, you can apply by completeting an online questionnaire located at:
