I have years of experience playing drums live. My typical style has been classic rock, country, blues, rock, and just overall good cover music that people can dance to. I've played in bands as small as 3 piece and as large as 10... I have taken a few years off to enjoy some time with my kids. They're older now and I'm getting bored and am ready to play again!!

The typical scenario for me would be to join a working band or do drum for hire as a fill in when needed for a couple bands.

I have all my own very nice gear and am also very willing to get anything else needed to perform. I have practice space and also own a full PA that is pro gear as well. I am very particular about sound!! I am also an extremely good sound guy!!!

I'm looking for a no drama, fun group of people who have their shit together! I'm 35 years old, I am a professional business owner that makes more than enough money so I don't need this for the money! Just for the fun...
