Testimonies

"As an experienced real estate broker and investor, I have worked with numerous other lending sources, however WPI proved to be one of the best and fastest. I contacted them with only a little over a week to close on an REO Rehab Project and they got it done in record time. I encourage others who are looking for an outstanding experience, to do the same" G. Dabney - Investor/Owner Broker - Washington DC

Charlotte, NC

"I never work with this company before and was really worried to start doing business with the lender out of state. It was hard for me to trust and go on, but after I finished the first loan I felt good and had lots of trust to them. I will use them again and I will hardly recommend them to the people who wants to get a loan. This is the best lender after bank that I ever found." M.
