

Cycle, 4 Wheeler, repair, tuning (Wayne)

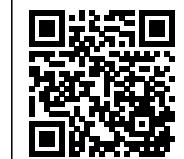

Location

Oklahoma
<https://www.genclassifieds.com/x-696356-z>

Our primary expertise is marine repair. Over the years our customers would see us working on our own bikes and we would get "you guys work on bikes?" to which we would reply no. Anyway after being begged we relented over the years. All makes and models, dirt, street, rockets, cruisers, 4 wheelers, we also do custom tuning of machines that have had after market exhaust, intake, air filters, camshafts, etc. Its mind boggling how far out of tune some of these things are and people continue to ride them completely unaware.

We do top end rebuilds, transmission work, electrical. Free consultation and estimates. We can wake your machine up and make it run. Call today...Referrals.
