Three year old German Shepherd. Was adopted at a human shelter in st cloud Minnesota. My fiance and I live in Fergus falls. With work and school we have become to busy for him. He's a great dog. Good with kids and small animals. He comes with his blanket that he clamied when we got him, kennel (door broken but it was a hand down), bark collar, leather leash and matching collar, dog food and dishes, and information of his adoption (such as medical and tracking number that's implanted in his)
