Looking for BEST POSSIBLE HOME for a 2 1/2 year old 3 legged (Right rear leg amputee) Rhodesian Ridgeback neutered male mix....tho looks pure. He was a rescue when I adopted him approx. 1 month post-op from amputation and he is an indoor/outdoor dog (sleeps on the couch) He is an incredible, high energy companion who is completely house trained, gets along great with cats and dogs, leash walks, can run up to 2 miles daily - just an awesome dog....only one dog too many for our household of 3 dogs and several cats. He needs much more individualized attention than we can give him. Nothing holds him back though I do need to lift him up into our vehicle to go for rides. Great, willing, loving, protective heart on this guy and he is very eager to please and very smart. Veterinarian references required and a re-homing donation of \$120.00.do not know how he is with children as we do not have any...have no reason to believe he would be aggressive altho he can be food aggressive from being a.
