I have a rental house in Tempe, AZ which is in need of a monthly yard service. A simple backyard mow, edge and blow should suffice on a monthly basis. Also occasional lawn care, tree care projects throughout the year will be needed.

I own a local web design business, www.paridymeweb.com. I am willing to trade services. I can provide you a new responsive website, email, monthly email newsletter to your clients, and website hosting in exchange for monthly service to my rental house. I'd prefer go this route if.
