The ad "****Siberian Husky Puppies***" is a complete scam. First this woman (?) that goes by Kalen Ken will send you an email the size of the new testament about the dogs and her (?) situation. Claims the dogs are named Kelly and Kane. Says sister passed and she had to relocate to Atlanta, GA for a job. Long story short she wants you to pay \$250 for one dog to be shipped and \$500 for both. The email will come with attachments of the puppies. If you take the images and google search them you will see them EVERYWHERE. Don't waste you money! If she truly wanted to find homes for the dogs then she would have done it before she left or just put up an ad in her current area. If you think you have been talking to the same lady then email me for the pictures and screenshots. Have a good.
