I have German Shepherd puppies in excellent health, great temperament. This race of dogs are excellent for loving the children. The German Shepherd puppies are good for inside and outside the house. They protect your family, and it is characterized by longer life. The female German Shepherd are very sweet to children. The male German Shepherd are excellent for protecting your house. I have 5 females and 1 male. They were born on August 21, 2015. Their grandparents were originally from Germany. Their parents are the original German Shepherd. They are very intelligent, in 2 months, they can go to your house (just I ask a relocation). For more information, only text me at Thank you. Only serious people. Thank you again.
