

Hamster Babies (Philadelphia)

Location **Delaware**
<https://www.genclassifieds.com/x-696879-z>

I have many Dwarf Hamster pups (babies) and adults to choose from, male or female, with a wide variety of colors. Mine are all well bred, friendly, and social. I have the following available to choose from at this time:

- (3) Agouti/Brown Baby Hamsters, Males, Very friendly, Can leave separately or in pairs
- (1) Champagne Adult Hamster, Male, Must leave alone or with his female mate (below)
- (1) Diluted Agouti/Cream Hamster, female, must leave alone or with her mate (above)
- (1) Orange/Cream Baby Hamster, Female, Can leave alone
- (4) Agouti/Brown Baby Hamsters, Males and Females, Can leave separately or in pairs
- (4) Campbell's Dwarf Hamsters, Panda, Silver, White, and sexes yet to be determined. Can leave in pairs or group, not alone.

To properly care for a dwarf hamster, you need a 20 gallon tank, and one wheel, hide, and sand bath per hamster. They are easy to maintain and care for, and lots of fun to play with for kids and adults alike.

Text or email to adopt one (or!)
